

Karan Joshi

karan.joshi@email.com | +91-9765432100 | Delhi, India

SUMMARY

Backend Developer specialising in Java and Python microservices. Strong grasp of system design, API development and database optimisation.

EXPERIENCE

Backend Developer | FinPay Technologies, Delhi | 2020–Present

Developed payment microservices using Java Spring Boot and Python Flask. Designed REST and gRPC APIs. Used PostgreSQL and Redis for data storage. Deployed on AWS with Kubernetes.

Software Engineer | TCS, Delhi | 2018–2020

Built ETL pipelines using Python and Apache Kafka. Managed MySQL and MongoDB databases. Wrote unit tests following TDD practices.

EDUCATION

B.Tech CSE, Delhi Technological University, 2018

SKILLS

Java, Python, Spring Boot, Flask, REST, gRPC, microservices, PostgreSQL, MySQL, MongoDB, Redis, Kafka, AWS, Docker, Kubernetes, TDD, OOP, system design, API design, agile
