SUMMARY

Data Engineer with 5 years of experience designing large-scale data pipelines and warehouse solutions. Expert in Spark, Kafka, Airflow and cloud data platforms.

EXPERIENCE

Senior Data Engineer | DataStream Inc, Kochi | 2021–Present

Designed and maintained Spark-based ETL pipelines processing 10TB daily. Built real-time streaming with Kafka and Airflow orchestration. Managed Snowflake and BigQuery data warehouses. Used dbt for data transformation.

Data Engineer | Accenture, Bangalore | 2019–2021

Built Hadoop-based batch processing pipelines. Wrote Python scripts for data cleaning using Pandas. Managed PostgreSQL and Hive databases on AWS.

EDUCATION

M.Tech Data Engineering, Kerala University, 2019

SKILLS

Python, Spark, Kafka, Hadoop, Airflow, dbt, Snowflake, BigQuery, PostgreSQL, Hive, AWS, GCP, Docker, Kubernetes, Pandas, NumPy, SQL, data engineering, data science, CI/CD, Linux, Bash
