SUMMARY

Security-focused Software Engineer with expertise in backend development and cloud security. Experienced in Python, Go and AWS security tooling.

EXPERIENCE

Cloud Security Engineer | SecureNet, Mumbai | 2020–Present

Implemented security automation using Python and Go. Managed AWS IAM, VPCs and security groups. Built monitoring using Prometheus and Grafana. Used Terraform for secure infrastructure as code.

Backend Developer | Reliance Digital, Mumbai | 2018–2020

Built Go microservices for payment processing. Managed PostgreSQL and Redis. Wrote REST APIs and implemented TDD practices.

EDUCATION

B.Tech CSE, VJTI Mumbai, 2018
